ELTE-AFRICA PARTNERSHIP FORUM

Tunisian and Hungarian Interinstitutional
Cooperation Development

Amine Zribi

ELTE's Student Ambassador & Ex-Student at UTM

Eötvös Loránd University (ELTE), Egyetem tér 1-3. 1053 Budapest, 23rd of May 2023.

Current Interinstitutional Relations

Currently, Exchange Programs and Scholarships working as a bridge between universities to offer for students:

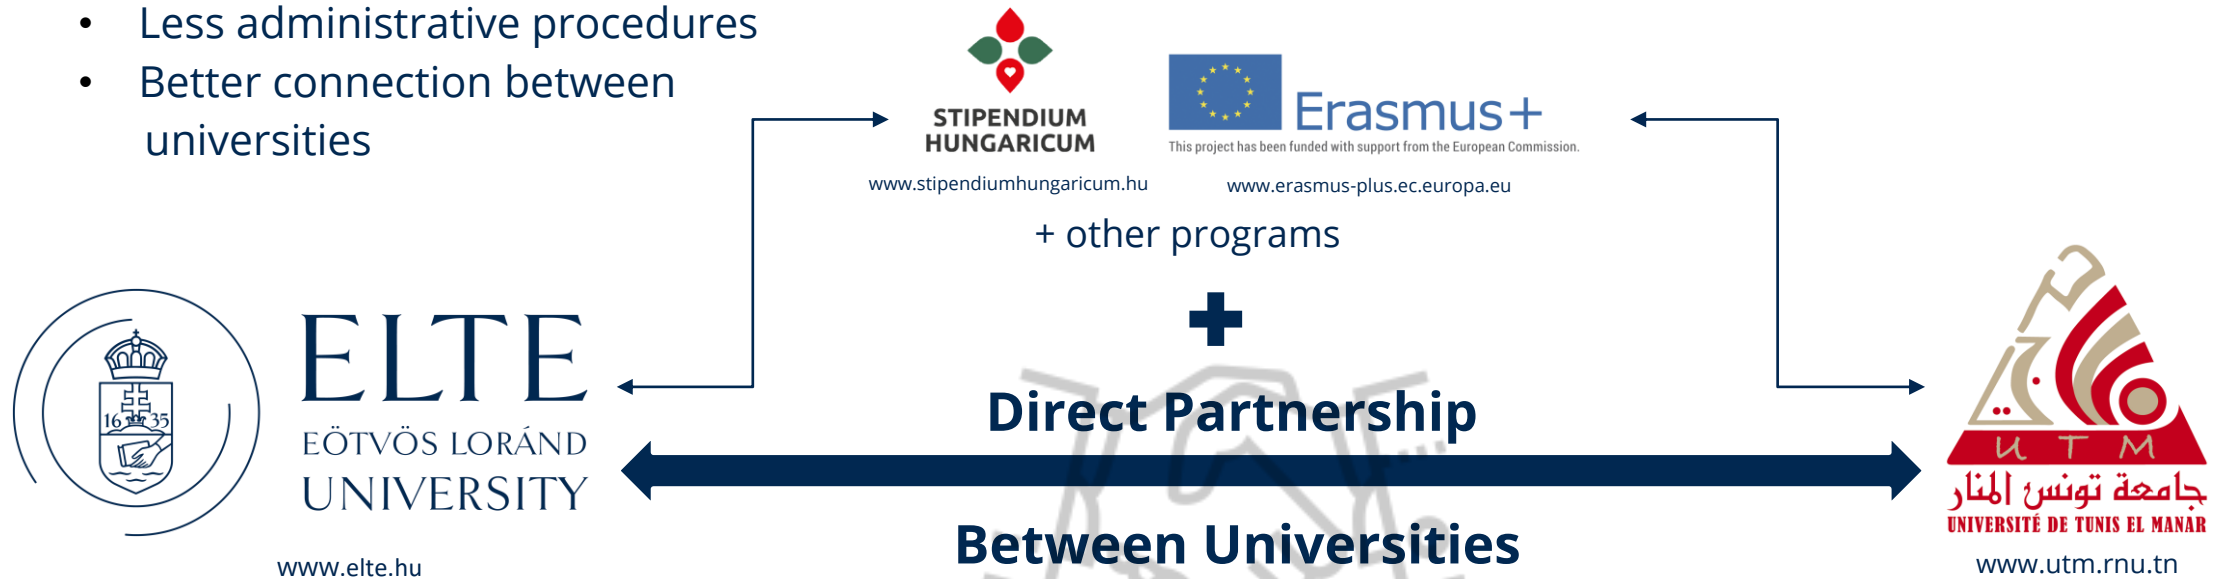

- BSc, MSc and PhD
- Research projects
- Courses
- Internships

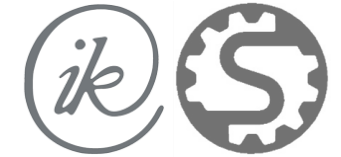

Relation Development – Direct Partnership

Keeping the already established relations, in addition, establishing direct contact between universities to offer for students:

- More accessibility
- More choices (hybrid or remote...)
- Less administrative procedures
- Better connection between universities

Benefits of Direct Partnership

ELTE
EÖTVÖS LORÁND
UNIVERSITY

www.elte.hu

Direct Partnership
Between Universities

UNIVERSITÉ DE TUNIS EL MANAR

www.utm.rnu.tn

Benefits for Students

- Exchange of Knowledge and Expertise
- Enhanced Academic Opportunities
- Cultural Exchange and Global Awareness
- Expanded Network and Professional Development
- Access to Resources and Facilities
- Expanded Study Abroad Opportunities
- Diverse Learning Environment

Benefits for Universities

- Faculty and Staff Development
- International Reputation and Recognition
- Increased Funding and Recourses
- Alumni Engagement and Support
- Institutional Learning and Improvement
- Enhanced Academic Programs and Curricula

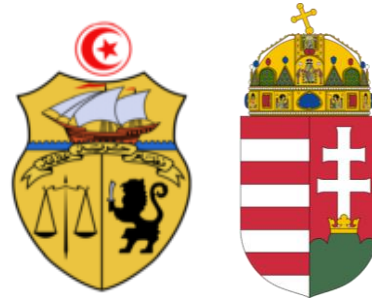

Solution Knot

The partnership needs joint work between:

- Universities
- Embassies from both countries
- Ministries

**Embassies
& Ministries**
Legalization and
Administrative
Entity

Academic Fields – Computer Science

Computer Science is one of the fields that can be implemented in this partnership:

UTM is ranked at the **top 400 universities worldwide** in computer science according to *US News & World Report*.

Big companies such as BMW is shifting its latest software production for new BMW cars to Tunisia.

=> *ELTE students can profit from such level by taking **internships** at UTM.*

An HR manager in one of the biggest French IT companies once said:

*“On dit pas qu’on a embauché un ingénieur en informatique, on dit qu’on a embauché un Tunisien”
“We don’t say we hired a computer science engineer; we say we hired a Tunisian”*

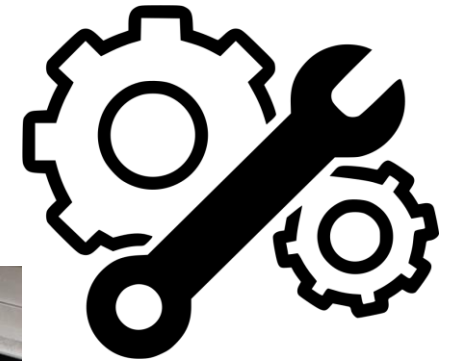

Academic Fields – Mechanical Engineering

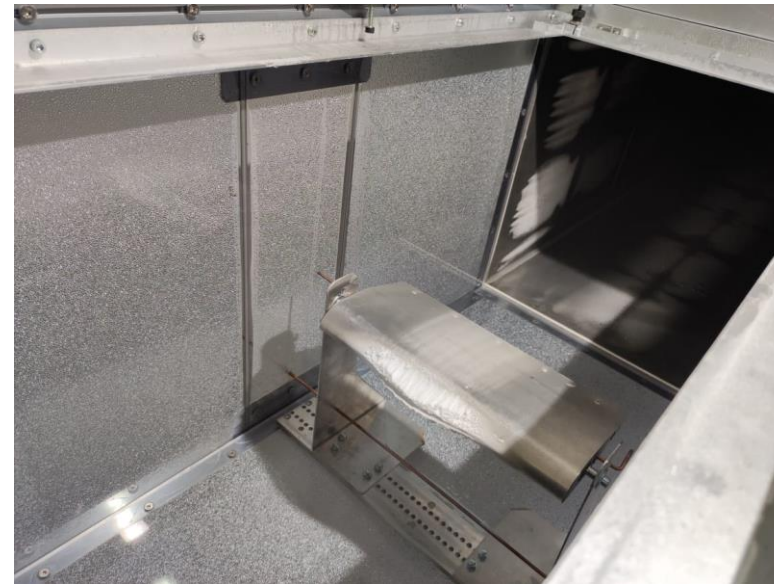

Mechanical Engineering and its related fields can be strongly invoked in the bilateral agreement between the two universities.

=> *UTM students can profit from such level by taking **internships** at ELTE.*

Electron Microscope at Savaria Institute of Technology, Faculty of Informatics, ELTE University.
www.sit.inf.elte.hu

Wind tunnel at Savaria Institute of Technology, Faculty of Informatics, ELTE University.
www.sit.inf.elte.hu

Academic Fields – Astronomy

We utilized the advantages from both sides of ELTE and UTM, moreover, we can even utilize the small gaps:

Astronomy is a science that is not widely developed in Tunisian academical system, and in order to pursue such field, students are obliged to leave the country.

ELTE – UTM Direct Partnership can offer a chance to UTM students to take on-site, hybrid or remote **internships** and **courses**.

ELTE Gothard Astrophysical Observatory and Multidisciplinary Research Center at Szent Imre herceg utca 112., Szombathely.
