(ELTE<sub>x</sub>HSUP &  
HSUP central)

Participation at  
**workshops, webinars,  
events** (ELTE<sub>x</sub>HSUP &  
HSUP central)

**Mid-Semester Report**  
31 March 2025

Completion of module-  
closing tests  
+  
Submission of  
**Progress Report and  
introductory video**  
21 May 2025

**SAVE THE DATE!**  
**ELTE HSUP Pitch  
Training & Pitch  
Event**  
2 June 2025

**HSUP central  
Introduction Day**  
4 June 2025  
**Demo Day**  
3 July 2025

## Useful information for the 2nd semester

- HSUP teams can consist of a minimum of 2 and a maximum of 3 scholarship students (there may be more members but max. 3 students can receive scholarships)
- Matchmaking (team members, HSUP mentors) organized by HSUP central via the HSUP platform & online events
- Scholarship and other financial support:
  - 50.000 Ft/month/student (4 months, from March to June); scholarship contract coming up in March/April 2025)
  - Members of the 15 best teams selected for the HSUP Demo Day receives an additional 1 million HUF/person
  - The 4 most promising teams in Hungary may even win 20 million HUF
- Watch out for obligatory & optional activities: mentoring, workshops and lectures by ELTE<sub>x</sub>HSUP & NIÜ
- *1st milestone*: Mid-Semester Report (March 31, 2025)
- *2nd milestone*: Completion of Module-closing tests and submission of Progress Report (by May 21, 2025)
- Notifications, deadlines – sent as Neptun course mail and by email
- Purposefulness, foresight – forming teams, completing modules, materials to prepare etc.

# Q & A

HSUP HUNGARIAN STARTUP  
UNIVERSITY PROGRAM

ELTExHSUP Info Session, 2nd Semester 2025 - February 4, 2025

**ELTE** EÖTVÖS LORÁND  
UNIVERSITY

**Q1: Can changes be introduced to the one-pagers submitted in December?**

**A:** Minor changes made to the concept should be possible; we will ask the HSUP central office about the possible extent of the acceptable changes. If you have not changed the basic concept of your idea, a more advanced version of the one-pager will be useful in the matchmaking process.

**Q2: What is the budget a team will be able to spend on purchases?**

**A:** It largely depends on the number of total scholarship holders at ELTE and how many teams apply for such a budget. We suggest that you make a full wish-list of what you would like to buy early on, especially because these purchases have to go through the university channels and comply with regulations.

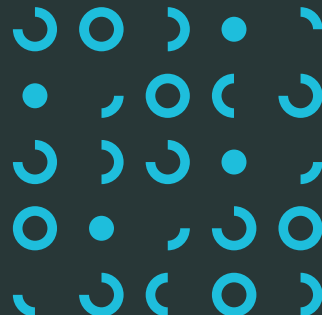

**Q3: On what basis are teams selected for the Demo Day?**

**A:** They are selected by a team of external experts organised by the HSUP central office, and the basis of selection is the progress reports. We suppose that the requirements will be shared with students by their mentors. Also, you will have to prepare an introduction video of your team and your project, which also makes for a basis for evaluation.

**Q4: The level of goals achievable within the given time frame varies between teams; what are the expectations for the semester and how can we define the proper development of the project in general terms?**

**A:** All teams should have a minimum viable product by the end of the semester, which, of course, does not have to be a tangible item. If you have a clear concept on what your product will really be, it will be taken into account. This is what you will need to achieve. Also, you will have to work on a more detailed business plan, outreach plan and on the product itself.
